The Art of Electronics by Paul Horowitz - Goodreads

Paul Horowitz is a Research Professor of Physics and of Electrical Engineering at Harvard University, where in 1974 he originated the Laboratory Electronics course from which emerged The Art of Electronics. In addition to his work in

The Art of Electronics

The Art of Electronics plays the role of the senior designer in a R&D department, the one who is always busy giving advice on how to turn circuits made of ink on paper into real working hardware. In this third edition Horowitz and Hill have not only greatly expanded the application topics, but have also managed to bring them to a higher level altogether.

The Art of Electronics: Horowitz, Paul, Hill, Winfield ...

Learning the Art of Electronics A Hands-On Lab Course. Preview the Book. This introduction to circuit design is unusual in several respects. First, it offers not just explanations, but a full course. Each of the twenty-five sessions begins with a discussion of a particular sort of circuit followed by the chance to try it out and see how it ...
