Cessna Flyer Association - Cessna Single Engine Models

Cessna finally released the Special Inspection Documents (SIDs) for its 100 series aircraft. These call out for numerous additional inspections depending on hours and service and age. The 400/300 series twins were the first to get SIDs and their market value collapsed since then. The 100 series inspections appear to be less intrusive but they are numerous and time consuming.

Cessna Single Engine Sid - happybabies.co.za

Thousands of Cessna single-engine aircraft are affected by an Airworthiness Directive (AD) issued by the US authority, the FAA. The AD, number FAA-2018-0049, concerns the lower area of the forward cabin door post bulkhead, where cracking has been found on some aircraft. It requires repetitively inspecting the lower area of the forward cabin doorposts at the strut attach fitting for cracks and repairing any cracks using a Cessna supplied service kit.
