~~GitHub — lyhopq/ARC: The Art of Readable Code~~

What is readable code? Readable code will mean slightly different things to each person. It varies between teams, companies, and programming languages. There are two groups of important people who are judges of how readable the code is: yourself and everyone else who will later read the code. Readable code starts with code that you find easy to read. When you finish coding, take a break to clear your mind.
